Chapter 4

Use Case: Create a new cost center

Use Case Description

This use case will allow you to create a cost center in iHCM

(Excludes iHCM NL)

API Usage

Method	Uniform Resource Identifier (URI)	Description	Sample Request & Responses
POST	/events/core/v1/organization-cost-center.add	Create a new cost center in iHCM	API Explorer for Organization Cost Centers

Application Scope

The canonical URI corresponding to the Organization Management API needs to be added in the Consumer Application Registry (CAR) for the subscription following which a user can access this API and make successful API calls.

The following canonical needs to be added to your application scope to enable this use case:

/core/organizationManagement/organizationInformationManagement/organizationCostCenterManagement/organizationCostCenter.add

Data Dictionary

The Organization Management API specific for creating cost centers exposes the POST Method. The following is the schema of the payload.

Cannonical Field	iHCM Field	Description	Notes
organizationCostCenter.costCenterCode.codeValue	Cost Center Code	The cost center code in iHCM	Maximum length: 15 chars (Else Truncated)
organizationCostCenter.costCenterCode.shortName	Cost Center Description	The cost center description in iHCM	Maximum length: 50 chars

Cannonical Field	iHCM Field	Description	Notes
			(Else Truncated)
organizationCostCenter.activeIndicator	Inactive Indicator	Displays in the UI if the Cost Center is Inactive	iHCM UK Only

Responses

You may encounter exceptions outside your common success scenarios. You must account for these exceptions during your initial development.
For more information, see API Common Exceptions and Tips for Handling.

For a Full list of example responses please visit the API Explorer for Organization Cost Centers
