Chapter 2

Helpful Resources

Developer Self-Service Portal: A Step-by-Step Journey

Prerequisite's to this Guide:

1. Read through the [ADP Marketplace Partner Development Learning Guide](#) to help establish your integration timeline and the development resources needed as well as complete all of your onboarding exercises in [Chapter Two](#).
2. Fill out your Milestone Dates in the [Developer Self Service Tool](#) located within your project under **"Manage Development Project"** and make your assigned Market Place Technical Advisor aware.
3. Fill out your [Partner Integration Specification Document](#) and provide it to your assigned Marketplace Technical Advisor.

More About this Guide

Once the partner [learning journey](#) is complete and your contract is signed the next step is development of your integration. This guide provides the tasks and resources to complete your ADP Marketplace integration, security review and publishing.

To Complete your ADP Marketplace integration you will need to successfully demonstrate all of the items in the [Partner Application Demo Checklist](#).

There are 3 main integrations that need to be built: **Marketplace, Single Sign-On & API** with a focus on the overall client experience. Below are the tasks and resources to aid in your development.
