Chapter 1

Marketplace IP Addresses for Whitelisting

Many companies enforce security and block employee's access to external internet assets. If your company enforce such security policies, please work with your IT department to whitelist ADP Marketplace IPs for your team.

ADP Marketplace API workflows are handled between two relevant Service Providers for external partners:

1. **ADP Marketplace by AppDirect,** our Online Storefront
2. **ADP API Gateway,** also known as the Data API for Single Sign On and Data Connectors

Traffic from these services are delivered by the following IPs:
