Question 2: How to get a list of employees who is reporting To?

Question 3: Which ID is the unique among associateOID, positionID, and workerID in the worker API call?

Chapter 9

Frequently Asked Questions

Frequently Asked Questions

Question 1: How to get a list of active employees from ADP Workforce Now?

Answer: To get a list of Active employees, use the following filter when completing a worker call.

hr/v2/workers?$filter=workers/workAssignments/assignmentStatus/statusCode/codeValue eq 'A'.

Question 2: How to get a list of employees who is reporting To?

Answer: Use the following filter when completing a worker call to get the list of employees who are **reporting To**.

hr/v2/workers?$filter=workers/workAssignments/reportsTo/positionID eq '1W6000070'

Question 3: Which ID is the unique among associateOID, positionID, and workerID in the worker API call?

Answer:

- **associateOID**:Unique across all ADP.
- **positionID** (workers/workAssignments/positionID): Unique to an employee's position.
- **workerID** (workers/workerid/idValue): Unique to a client's employee.

An employee with multiple positions/employment records in a company will have one unique **associateOID**, one unique **workerID**, and one unique **positionID** per position within a client.
